

Fall Kindergarten Registration

Kindergarten registration will be held April 18-22. Parents are encouraged to register their child for school during this designated week, as it helps in determining classes for next fall. Children must be five on or before August 31, 2011, in order to enroll. A certified birth certificate (for the school to copy) and up-to-date immunization records are required before the first day of school. The Washington State Department of Health requires each child must have at least five doses of DPT and four Polio with the last dose on or after their fourth birthday. Two doses of Varicella (chickenpox) are required after the first birthday or verified by a medical provider through a blood test showing immunity or a diagnosis of the disease. Parent reported history of chickenpox is no longer acceptable. Also, the second MMR and three Hepatitis B shots are required before school attendance. You must register your child and have the immunizations completed by the end of August.
